About This Game

Full Scale Restoration of the Japanese battleship “Yamato” in VR.

Battleship Yamato was constructed during the World War II in 1941, and it was the biggest battleship ever built. Unfortunately, Yamato didn't last through the war, and it sank to the bottom of the sea.

Now, battleship Yamato is completely restored in full scale in VR. It is based on the blueprints and the recollections of the actual crew who are still alive.

In this app, you can actually get on Yamato and walk across the deck, climb up the bridge, and go inside the ship. See the Yamato crew taking command. View the explosions of the gun fire from a close distance.

The list below shows what you can actually see in the first edition of VR Yamato.

- ☑ Deck
- ☑ Inside the first bridge
- ☑ Inside the main gun
- ☑ Scene of the crew practicing firing the gun
- ☑ Fire control center
- ☑ Captain's cabin
- ☑ Pilot house
- ☑ Hangar
- ☑ Ship's kitchen

With VR Yamato, enjoy the battleship from the perspective of an actual crew.

Personal Suggested Purchase Price: \$0.99 Or Less During Sale. simple gameplay i like it. From the screen shots I was expecting the game to be brimming over with content. It boasts huge item lists and large tech trees. However as I started advancing in the game I noticed the items were functionaly identical. I have to give this game a huge thumbs down, it could have nailed it! but it ended up fumbling and failing.. Bad. Really, really bad. It swings between being tough to control and having surrealist themes that signify nothing. That said, the art is beautiful.. Its a good game to past the time.. I wouldn't reccomend this to a gosh darn monkey. controls are terrible and i couldn't get through the first level DUE to such bad controls. overall:

0V10 waste of storage space.. An amazing highscore chaser where you have to constantly balance risk and reward in order to keep up your combo multiplier.. very googoggd. Horrororiented puzzle/adventure game. I found the game rather challenging, especially since it was quite often hard to figure out what was next (alot of it just seemed illogical to me - and too many times the objective was hidden in the graphical representation of the game).

If you like very hard adventure games with a horror-theme, this could be for you.. otherwise there are, in my opinion, many other games out there I would recommend over this one.. **PLZ DON,T BY NONE OF THE LAST HOPE GAMES THEY ALL SUCK FOR REAL IT NOT WORTH BUYING**

hmm, I read so many positive reviews of this game. It is indeed a decent shmup, but it didn't get me hooked. No matter which level or what enemies, you always have your same manoeuvres. Gets a bit boring after some levels doing always the same until all enemies are wiped out.. No replay value after receiving the "good" ending. It has deer. Great game and a great story. I'm repeating myself for the third time. Anyway, the only downsides are the achievements and the multiplayer of this game. The achievements are very grindy especially the multiplayer ones. One more thing. The multiplayer is made with a "console(PS3, XBOX) networking " in mind. This means, in this, the PC version of the game's multiplayer is very easy to cheat. This make the achievements grind even more frustrating.. 5-7 \$, а потом бац, и она фри ту плэй. Обидно однако. А сама игра шедевр, но жалко онлайн маленький. Если бы людей побольше было б, тогда вапще ♥♥♥♥♥ь.. This is probably a fine game on a phone where multi-touch is a thing, but with a mouse, it's frustrating.. interesting time management game. Some unusual features and it's fun to plan ahead your sandbox game. When you select sandbox game you can pick 3 goals to achieve. Some of it very hard to achieve simultaneously :) I'm glad I've bought this game, as a bonus it's in my native language with quality translation. Can't ask for more!
